# Fractal Bootcamp: Pre-Course Schedule

The below schedule is designed to prepare students for Fractal Bootcamp's intensive 3 month study. It is a 28-day course outline, which is best managed by 1-3 hours of daily practice. Students that complete this pre-course material should easily be able to pass the technical check-in.

Each week consists of 4 parts:
- Full Stack Open
- Eloquent JS
- Pre-course Materials
- A Leetcode problem

| Week | Full Stack Open (link) | Eloquent JS (link) | Pre-course Materials (link) | Leetcode (link) |
